EXPERIENCE

TrAir Teknoloji Yatırımları A.Ş. – Team Lead

August 2022 - Present

- I facilitated the correct progression of the development process by planning daily and weekly tasks for the software team.
- I improved my skills in database management by mapping out the database schemas for the project.
- Developing projects using Django allowed me to enhance my understanding of Jinja templates and the MVT architecture.
- I developed APIs using Django Rest Framework (DRF) and improved my skills in REST API by testing them on Postman
- I had the opportunity to manage CI/CD processes using Jenkins.
- I actively participated in multiple projects, enhancing my skills in stress management and project development processes. Working on multiple projects continuously exposed me to a dynamic environment, fostering my ongoing learning process.
